

SHIELD TRAINING

Offered at the annual Southern Nevada Substance Misuse and Overdose Prevention Summit

REGISTER TODAY

Registration is \$20 per person

Scholarships available

Thursday, August 10th 2023 from 8a-5p

Red Rock Casino Resort and Spa

11011 W Charleston Blvd,
Las Vegas, NV 89135

ABOUT SHIELD:

The SHIELD Training Initiative equips law enforcement and other first responders for their work at the front lines of the overdose crisis. It provides knowledge, skills, and resources that improve their occupational health, wellbeing, and effectiveness. Built on decades of experience and deep knowledge of the evidence base, SHIELD is driven by practice and delivers practical solutions.

SHIELD's skills-based learning is delivered peer-to-peer by the SHIELD training team, which is led by a retired police chief and includes local officers, first responders, and public health experts. Based on their extensive track record, the departments that embrace SHIELD's strategies will see reductions in stress and burnout, infectious disease risk, and overdose and addiction in the community in addition to improvements in job satisfaction, community health, and overall public safety which results in improved police-community relations and enhanced recruitment and retention

For questions, please contact the Event Coordinator, Katarina Pulver, at pulver@snhd.org
